

U.S. Department of Transportation
Research and Innovative Technology Administration

Supervisory, Engineering Psychologist, Operations Research Analyst, or Industrial Engineer

U.S. Department of Transportation
Volpe National Transportation Systems Center
Cambridge (Kendall Square), MA

The John A. Volpe National Transportation Systems Center (Volpe Center), located in Cambridge, Massachusetts, is an innovative, fee-for-service organization within the U.S. Department of Transportation (DOT). We work primarily for DOT, as well as other federal agencies and state, local, and international entities by providing comprehensive technical, analytical, and institutional support in the development and improvement of transportation and logistics systems. Our mission is to serve as a catalyst for change in the development of solutions to transportation problems and the application of innovative technologies and operational practices to make the transportation system safer, effective, and efficient.

Our Division Chief will strengthen and expand Volpe Center's role in applying its technical capabilities to U.S. DOT strategic goals and national transportation priorities. They are also instrumental in establishing and maintaining Volpe Center's standing as a global leader in the field of transportation policy, research, and systems development.

We have an exciting opportunity for the following Division: To apply, go to the following link:

▪ **Behavioral Safety Research and Demonstration:**

<http://jobview.usajobs.gov/getjob.aspx?jobid=82315153>

The ideal candidate is an **Engineering Psychologist, Operations Research Analyst, or Industrial Engineer** who possesses superb project development, management skills and experience applying quantitative knowledge and methods to plan, direct and conduct studies associated with human behavior and transportation safety and productivity.

Transcripts are required (instructions on how to submit transcripts are described in the "How to Apply" tab in the usajobs job announcement). When you work at the Volpe Center you work with people like you –talented professionals who enjoy putting their expertise to work in the service of others and resolving real-world transportation problems. We are located in the culturally diverse and academically rich city of Cambridge, MA (Kendall Square), and offer competitive benefits, and a flexible and family-friendly work environment. **Ability to travel 25-50% is required.**

Relocation may be authorized. U.S. Citizenship required.

Annual salary range: \$121,694 – \$153,200.

Application deadline: August 10, 2009.
